INDIANA STANDARDBRED BREED DEVELOPMENT PROGRAM

The Standardbred Breed Development program was established to promote the Indiana standardbred industry. This program, funded by the Standardbred Breed Development Fund, was established to promote the Indiana Standardbred Industry while stimulating the agri-business sector of the State's economy. Ten percent (10%) of the riverboat admission tax allocated to the racing industry is distributed to the Standardbred Breed Development Fund. In addition, all breakage and unclaimed tickets are distributed equally between this fund and the Thoroughbred Breed Development Fund. The Standardbred Breed Development Advisory Committee is appointed by the Governor to advise the Indiana Horse Racing Commission in the distribution of these monies. This Advisory Committee works closely with Hoosier Park, the Indiana Standardbred Association, Indiana Standardbred Advisory Board, and other horsemen organizations to develop the Standardbred Breed Development Program. This program has become an invaluable tool in developing and maintaining the fast growing high quality standardbred industry in the State of Indiana.

The Indiana Standardbred Board of Regulations was created in the Office of the Commissioner of Agriculture in 1979. The purpose of this Board is to further the Indiana Standardbred industry. In 1999, legislation passed by the General Assembly moved the Indiana Standardbred Board of Regulations under the auspices of the Indiana Horse Racing Commission, and changed its name to the Indiana Standardbred Advisory Board. This Board still furthers the Indiana standardbred industry by sponsoring the Indiana Sired Fair Circuit and Indiana Sires Stakes race programs. They continue to work in cooperation with the Indiana Standardbred Breed Development Advisory Committee, Hoosier Park, the Indiana Standardbred Association, other horsemen groups, and agribusinesses across the State of Indiana to ensure the continued development of the fast growing Indiana standardbred industry.
